

BRAYING TRAPS BY ENEMIES, BRITISH TAKES ROYAL GERMAN

ive of Kaiser's Battleships are Sunk and Many Others Badly Damaged, While British Boats All Still at Sea and Casualties Among Sailors of the King Very Slight—Tonnage, Thinking Themselves Secure, Badly Frightened at Brave Attack and Make Run For It. Younger Blood of Navy Tire at "Silent Victory" and Engineer Raid Which Covers Them With Glory.

London, Aug. 29.—The fleets of Great Britain and Germany at last have come to grips and, according to the wireless, a glorious victory lay with the British. In a battle off the island fortress of Heligoland, in North Sea, yesterday, the German naval forces lost two cruisers and two torpedo boats sunk, while another of their cruisers and many of their destroyers were badly battered in a fight with British warships. The British claimed not to have suffered the loss of a single vessel and declared that the fatalities on board the vessels of their fleet were small. The island of Heligoland, which lies off the mouths of the rivers Elbe and Weser, always had been regarded as a point of great strategic value for the protection of the Kaiser Wilhelm canal and otherwise in the naval defence of Germany. Recent reports had it that a large part of the flower of the German navy lay in the waters adjacent to the mouths of the Elbe and Weser and in the Kaiser Wilhelm canal, which are now borne out by today's engagement.

The Chronicle says: "A glorious victory has fallen to the British fleet. With all the courage and fearless enterprise that distinguished our officers, who many times were at the very jaws of the enemy, Vice-Admirals Beatty, Christian and Moore have conducted the combined operations in the light of Heligoland, where the enemy had all its strength at command. The triumph was complete. The German light cruisers, Mainz and another of the Koeln class, and a third whose name is unknown, have been destroyed, as well as two destroyers.

"The tale is probably not complete. Evidently a concerted attack was planned just as our old seamen would have planned it, to begin in the dark and reach its decisive point at dawn. The attacking force was the main fleet battle cruiser squadron. The light cruiser squadrons and destroyers and submarine flotillas were engaged. To Vice Admiral Beatty, the flag officer longest at command, the first battle cruiser squadron comprising the Lion (flagship), Queen Mary, Princess Royal and New Zealand, fell the opportunity and honor which will make him and his officers the envy of the whole fleet.

"The conduct of operations was under the direction of Sir John Jellicoe, commander in chief. Sir David Beatty is one of the most brilliant of our officers, and with him were Rear Admiral Moore and Rear Admiral A. H. Christian, also Commodore. Sir J. J. Keyes, Commodore Hedges, C. Tyrwhitt and Commodore Wm. E. Goodenough. Complete was the victory, we have suffered little. All our ships and vessels are afloat and in good order. We must not note the high efficiency of our gunnery. Not a German cruiser escaped, and their destroyers wildly fled to shelter, having had one of their number destroyed.

The importance of the British naval victory today lies in the fact that the British fleet, in the dark night, passed behind Germany's heavily-armed outer belt off Heligoland Island and engaged the German fleet guarding the mouth of the Elbe and the entrance to the Kiel canal.

The British fleet had evidently tired of waiting for the German navy to come out into the open and fight and

when they attempted to sortie. But apparently the British got word that the time was favorable and they headed Heligoland have recently shown increasing activity to some extent. They appeared to suppose that the mines they have scattered indicate an attack in the North Sea must deter our seamen from any large operations. They have deceived themselves. The battle cruisers, of which it may be assured there were sufficient present to have engaged the German battle fleet if it had come out, covered the operations. Our destroyers engaged the enemy's destroyers, and our cruisers, the cruisers which formed their support. How long the engagement continued, we were not informed but apparently the Germans were pursued well into Heligoland light, as the action took place off the entrance to the German coast and in the neighborhood of Heligoland. It may be certain that the remainder of the German fleet, if it was anchored anywhere, thereabouts must have heard the firing and have quickly learned the result of the operations. Whether it would have the effect of altering the plans of the German admirals and the Kaiser it is impossible to say, but to sit down much longer and learn of nothing but losses on their side cannot have very good effect on the morale of the German seamen.

Admiral Beatty Only 48
London, Aug. 29.—The British admiral made his official despatch to have youth on his side in the Admiral Beatty. Although only 48, he is a seasoned sailor who has seen fighting in Egypt, in China and has had an amazingly swift rise to distinction. On the Nile under Kitchener, he performed wonders in getting gun boats over a catamaran and commanded the flotilla which bombarded Donga. At Tien Tsin he was twice wounded while leading two hundred boat jockeys to the capture of two gunboats. He became a naval officer at the age of 18 and was knighted this year. Just before the war he was in command of the British squadron which paid a visit to St. Petersburg.

London, Aug. 29.—Sergeant Loftus, writing to his brother in England of the experiences of the British in the battle of Mons, says:
"I came at an unexpected time, when we should have not expected any German, just after sunrise. Our cavalry picked back reporting the approach of the enemy in force. We lay in the trenches and soon they returned the compliment. They were a long time finding the trench.
"After about half an hour their infantry came into view. They were in single squares, standing out sharply against the sky line. You could not help seeing them.
"Then our trenches without a sound and they crept nearer and nearer. Then our officers gave the word, a sheet of flame flicked along the trenches and a stream of bullets tore through the advancing mass. They seemed to stagger like drunken men, and then suddenly they made a run at us.
"By this time our artillery began dropping shells among them and they broke into open formation, rushing like madmen toward the trenches. On our left the Germans fell back in confusion and lay down wherever cover was available. We gave them no rest and soon they were again in flight.
"Then came more shelling of our trenches and another rush across the open on our front.
"This time they were strongly supported by cavalry who suffered terribly but came up to our lines.

Cigar Traveler Points Out How That Branch of Industry Will Profit.

"MADE-IN-GERMANY" TO BE THING OF PAST

Predicts Great Influx of Agricultural Settlers to This Province.

Charles E. Griggs, representing the Ben Boy, Olympia and La Bohem cigars, manufactured by Ed Young, of Montreal, is at the King Edward hotel this week with a tour of Canada in connection with an advertising campaign being conducted for the cigars, especially Ben Boys.

"Mr. Griggs sees little reason for pessimism in Canada and in Alberta especially, because of the European war. On the contrary, he believes that the cigar and tobacco industries, at least, will benefit by it.

"People will smoke made-in-Canada cigars instead of those made in Havana," he says. "The Havana cigar factories are closing because the European market has been closed. The number of cigars shipped from there to Canada is so small that they do not warrant keeping the factories open while the tariff keeps them out of the states.

"Not only should the cigar and tobacco industries be benefited by the war, but almost every other business I know of will be benefited. There will be a great rush of people to the land in this country, with its vast resources of territory being even that itself will be beneficial to the country.

"Then there is the question of goods which are ordinarily shipped from Germany and Austria to here. This will almost cease altogether, partly because the factories in those countries will be closed and partly because the people of this country will hereafter have a natural aversion to goods from those countries.

"That means, of course, that Canadian factories, and through them, Canadian farms, forests and mines, will have to supply the goods. If that is a cause for pessimism, why is it that the United States, which, commercially occupies the same position now as does Canada, is taking advantage of the conditions to give her a better position in the world's commerce?

"Business is good with us. Our factories, behind us with Ben Boy cigars. Canada, of course, stood behind Britain in trying to avert this horrible war, but it is a big thing, commercially, for it is."

INDIAN SOLDIERS FIGHT IN FRANCE SAYS LORD CREWE

Kitchener Almost Forced To Take Steps as Troops Heard Africans Seeling Service

LITTLE RISK OF TROUBLE
IN INDIA; MEN ENTHUSED

Many Places From English Colony Send Gifts to Government and Soldiers on Field

London, Aug. 29.—Lord Kitchener, secretary of war, announced in house of lords today that in addition to reinforcements to the present expeditionary army in France which would be received from this country, the government had determined that the British army in France should be further increased. The troops to increase the forces were now on the way, he said. He added that all the gaps in the army in France were being filled up.

That the employment of native Indian troops was meant by Lord Kitchener was later confirmed by the Marquis of Crewe, secretary of India. The Marquis said:

"It has been deeply impressed on the mind of the government that the wonderful amount of enthusiasm and loyalty at the present time passing over India—people that Indian soldiers should stand side by side with their comrades in the British army.

"India is aware of the employment of Indian troops to assist the French army and it would have been a disappointment to India if they had been deterred from taking part in the war in Europe.

"Our army will thus be reinforced by soldiers—highly souled men—trained to the highest degree of discipline, and I am certain that they will give the best possible account of themselves. I venture to think that this keen desire of our Indian fellow subjects to co-operate with us is not less gratifying than the same desire shown in the self-governing dominions some of whose soldiers are now in the front line of the fighting by the side of British troops and Indian troops in the war. Of course we all know that India does not possess an inexhaustible reservoir of troops and the defence of India must in itself be a prime consideration for not only to India itself, but to us, and I am able to state that so far this country is not in any danger of being attacked. I hope and believe that there is no prospect and scarcely a possibility of the invasion of India by the Indian army. The Indian frontiers will be fully and adequately secured.

"Little Risk of Internal Trouble
"As regards the risks of internal trouble, I believe that the enthusiasm which pervades all classes and races in India will render anything of the sort almost impossible.

"That enthusiasm has found vent in many different ways—in some cases by gifts of great value for the service of troops in the field. I am told yesterday by the viceroy of India that some of the principal Indian princes had sent a gift of 50 lakhs of rupees (about \$2,500,000) for the use of the troops in the field. There have been on varying scales a number of offers of the kind.

"I feel confident that the action we take will meet with a most enthusiastic reception in India and I believe it will be approved by your lordships, the house of commons and by public opinion here generally."

ABILITY AND EXPERIENCE OF "THE PLAYERS"

The organization was stage direction of a company designed to produce a series of plays which run the gamut of every emotion that human nature is capable of. It is a task that requires the skill and discretion of a mastermind.

Such skill is possessed by Theodore Johnson, formerly stage director of the Permanent Players, Winnipeg, for seven years, in no personal charge of the "Players," a company of America's foremost actors who will present a series of the very highest class productions at the Grand Theatre, Calgary, and Empire theatre, Edmonton.

With alternate engagements of one night and one matinee at each theatre, "The Players" will utilize the Calgary theatre the first half of the week, and the Edmonton theatre during the last half, except when road companies are booked. All productions will be built and planned in this arrangement has been made possible by C. P. Walker, general manager

of the Western Canada theatre, limited, this organization having assumed control of these houses, thus bringing to Edmonton and Calgary the opportunity of seeing the best plays hitherto known only by name in this territory and produced as accurately and as elaborately as by the best road companies.

Here is a partial roster of the company which Mr. Johnson has selected after a trip to New York, now known as "The Players," have an actress who can run the entire gamut of the emotion, with shades and variations exquisitely interpreted, according to the role she assumes. Miss Brand, by the way, created quite a furore as leading woman of the Permanent Players, Winnipeg, where she played for two seasons.

Guy Harrington, the leading man, has a high reputation as a stock actor in the east. He has filled many engagements with noted permanent or

MANY GOOD THINGS FOR PATRONS PATRONS

The bill at Pantheons theatre next week is made up of a variety of things including comedy, music, singing, acrobatics and a new sensational act that will undoubtedly prove the vaudeville hit of the week.

The headliner for the week brings back two favorites who scored a success here last year. Teddy McNamara and Queenie Williams return in a brand new musical extravaganza. The names of Teddy McNamara and Queenie Williams are well known to Edmonton theatre goers. Last they played here with the Ford Opera company, when they scored a hit in a condensed version of Gilbert and Sullivan's popular opera, "The Mikado."

The funny antics of Teddy McNamara at that time endeared him to a host of Pantheons patrons and Queenie Williams ably demonstrated that she possessed a fine voice and a wonderful personality. This year they are said to be better than ever and they can always be depended upon to present an act which is very entertaining.

This time they are featured in a brand new musical act entitled "The Guide of Monte Carlo." The vehicle gives them a wonderful opportunity to repeat their previous success. The story is clean and refreshing and the musical score is made up of seven numbers.

A added attraction for the week is the vivid spectacle entitled "Titanic," in its faithful detail the sinking of the great steamer "Titanic" on its maiden voyage on April 15, 1912. This wonderful contrivance on the stage tonight. Throughout its entirety no motion picture, slides, shadowgraphs or anything of that sort is used. It is one huge mechanical device in three parts. First one sees the big steamer in the harbor at Southampton, sailing at her dock. Then the scene changes to the middle of the Atlantic and here all the beautiful contrivances are brought into play, the view is shifting, the ship steaming into view, the anchor heaving from her furl, and all her lights ablaze.

The orchestra playing on the upper deck. The last and third scene is shown. The ocean becomes a field of ice; the big ship comes steadily on, and crashes into an iceberg, slides off and slowly sinks; one by one the life boats are lowered; the lights go out and the ship sinks into the depths below; a terrific explosion is heard and the big ship breaks and disappears; then the women and children are seen floating round in life boats.

The act is wonderfully staged and so realistic that one almost forgets that one is watching an entertainment in a theatre.

The show will be opened by Lechman and Luddy. They will be seen in an accurate and juggling act that appears so daring and difficult that it has earned the sobriquet of "A Live Attempt at Suicide."

The couple is scoring a big hit in Winnipeg this week. The fun supplied by Saunders and Von Knipps. This couple will be seen in a travesty entitled "Pan in Black," a play with a little bit of everything from good singing to dancing.

An act that holds an important position on the bill, due to the large attendance by music loving theatre goers is the Roadell Sisters.

This trio is just a little bit above the ordinary caliber. Each member of the trio has a pleasing voice and the combination is without a doubt one of the sweetest groups of songbirds that has ever come over the horizon. They have a repertoire of some of the latest songs and they will surely please.

EMPRESS WILL EXHIBIT

The Empress theatre is bringing to Edmonton to show on the program of popular photoplays, for Monday and Tuesday next, one of the pictures that was exhibited at the New York convention of motion picture men, held recently. "The Song in the Dark," it is named and is said to be an ideal photo-play in a number of respects that perhaps being the reason the picture was chosen to be shown at the convention.

The story deals with two lovers who, when children, had lived for one another.

It was only natural that Angela and Richard should become engaged. They were children together, and had lived for one another. Their love was the true and undying love that has been known to exist for ever. The picture, and when a bird vendor stopped her on the street one sunny afternoon and asked her to sing, she sang "The Song in the Dark," the man for a card, that she might recommend him to her friends. That night, Angela and Richard, in the singing of the canary and could not understand why the bird should be so colorful, Angela and Richard, in the singing of the canary and could not understand why the bird should be so colorful, Angela and Richard, in the singing of the canary and could not understand why the bird should be so colorful.

"SHERLOCK HOLMES" BY THE LYCEUM PLAYERS

Mr. Sherlock Holmes, the Arthur Conan Doyle built up in perhaps the strongest character in fiction. So great has been the demand for Sherlock Holmes stories that as Mr. Arthur Conan Doyle has said, "I was forced to kill him in self-defense."

The story comes in the hands of the dramatists—climax and anti-climax follow each other in rapid succession. Throughout the whole play runs a passionate love story, that holds the audience by its very intensity.

The cold, calculating detective, while on a case of more than usual mystery, suddenly finds himself up against "the greatest thing in the world," when he realizes how deeply he is fascinated by it. What he goes through to attain his heart's desire makes up one of the most thrilling dramas ever presented.

Edward Hearn will be seen in his former role of Sherlock Holmes at the Lyceum next week, in which he won so much deserved praise last season. Miss Garce Johnston has the charming role of Dr. Watson. The rest of the company is splendidly cast and with a magnificent mounting, Sherlock Holmes is sure to be a treat to the usual man will be given Wednesday and Saturday.

Ed Wynn, known both in vaudeville and the legitimate, and who is now in the Ziegfeld, Police act, is going to marry Miss Hilda Keenan, daughter of Frank Keenan, the well-known actor. Frank Keenan has appeared with her father on the stage, and she is now in the "Hilda" with him. Frank Keenan and his daughter both appeared in Edmonton, though not together, last winter. They were big favorites locally.

REAL LIVE BABY TO BE GIVEN AWAY AT BIQU

The Biqu theatre, announcing for next week two attractions accordingly. A real live baby will be given away at the "Country Store," Tuesday night, the holder of the lucky winning ticket.

This is by all means the most novel of all stunts put on by the Biqu. As each patron enters the door they will be given a ticket bearing a number and later in the evening the drawing takes place. The one who happens to secure the lucky number takes home that same evening a rosy, plump, real live baby.

The other attraction for the Monday and Tuesday program is a special feature which was much talked of in the past. It is a play, entitled "The Sign of the Cross," the film vividly portrays an actual conflict of history that took place on the plains of Calais in France, where now, or shortly, doubtless, will be staged another of the memorable battles of history. Perhaps no battle-field in all history has been the stage for more famous and important clashes than Calais, inasmuch as it is and always has been such a strongly strategic point, greatly desired by both the English and the French.

The significant thing about the picture that will be exhibited at the Biqu is that the scenes that will be projected were really staged on this memorable battlefield, and many of the fortifications and lay-out of the town were excellently used as settings in the film production. The Pathé brothers, the celebrated French film producers, manufactured the picture. Every scene in the two reels is colored, which will even add to the appreciation of the fullest enjoyment of the photo-play, hardly a more desirable and interesting production could be shown at this time.

NO PUNCTURES

The "buttoned" tires having failed to prevent punctures, the big corrugation tire is selected. The inch high anti-skid tread keeps nails, etc., away from the "puncturable" tread proper of a tire.

MILEAGE PLUS SAFETY

The "buttoned" tires having failed to keep up continuously, the big corrugation tire is selected. It set the record in 1912 of making the first and only Canadian Transcontinental trip.

IS CIVILIZATION HOLDING ITS OWN?

When Napoleon, under the direction of the Paris directorate, went into the war business a trifle over a hundred years ago, Paris and all France was bankrupt. Internal strife incident to the establishment of the revolution, combined with a legacy of liabilities accepted from the monarchy which had been disestablished, had piled up debts until the treasury represented a cypher with the rim off, until the national resources had been all squandered and the paper money of the country was worth anywhere from ten cents on the dollar to nothing at all. Napoleon took hold of the only resource France had—which was fighting men—and changed all that. He went into the war game as a business proposition. First of all he liberated Belgium and established a republican government in place of the Austrian autocracy, charging the Belgians one hundred million francs for doing the job. Then he upset a few monarchies in Italy, chased the pope out of Rome and made the kinging business south of the Alps generally unprofitable by putting those under tribute whom he did not put out of business. Incidental to this he charged all the republics established in Italy, and later the republic established in Switzerland, a good round fee for setting them up in business as republics. Most of them later relapsed, but Napoleon in the meantime got the money and brought it back to France—or at least the remainder left after paying his armies—and with this did a great deal toward putting France on a financial basis from which she has benefited ever since. Napoleon's finish was in sight when his country commenced to regard tribute rather than the establishment of liberty as the prime motive of war. But for twenty years his war enterprises were amazingly successful.

When Motte and Bismarck and the grandfather of the present emperor administered the humiliating defeat of 1870-71 to France they followed the same tactics as Napoleon had adopted. As a penalty for having been defeated, they charged the French three times the price of the war, one thousand million dollars, in round numbers, a very large part of which they used in rebuilding the German army and the most of the remainder they have hoarded away in a tower near Berlin in readiness for the next war, which has now come.

Now Germany, almost bankrupt by preparation for this war, is following the same tactics. She has levied \$10,000,000 against Liege, \$400,000,000 against Brussels, \$90,000,000 against Brabant and \$400,000,000 against Tournai. As the German army progresses into France these levies are being made. What the levy will be when, or if, the Germans reach Paris remains to be seen. Certainly it will not be an amount that can be reckoned in "chicken feed."

It is clear, however, that the German idea is to make the other fellow pay for the war; and also for the cost of the preparation for the war, just as Napoleon did, and as the Romans did two thousand years ago when they levied tribute upon the helpless barbarians. In other words, the Germans are engaged in piracy on a most stupendous scale.

The question is whether civilization is holding its own since Napoleon's time, or even since Caesar's time.

THE VITAL IMPORTANCE OF THE NORTHERN FRONTIER

Has the historic temperament of the French led them into a wrong position in the present war?

France, since 1870, has made a tradition of Alsace and Lorraine. In the hearts of all Frenchmen the loss of the two provinces has been a wound which could only be healed by their recapture. In Paris, among the statues symbolic of the provinces, those representing Alsace and Lorraine stand draped in mourning. When war broke France hurled her strongest armies into Alsace and Lorraine, leaving inferior forces to guard the northern frontier, across which the German legions are now crashing into France. At Arras, Cambrai and Amiens, where the Germans are now pressing the French and British to a battle which may throw open the route to Paris, there are no fortifications. It is field fighting in which the advantage is with the strongest army. The British and French, with inferior numbers, are contesting every inch fiercely in what is undoubtedly the greatest battle of all history, a battle of millions. Undoubtedly the reinforcements are coming up, both from the south of France and from across the channel. But should the Germans succeed in forcing a way through, should they succeed in capturing the country between Amiens and the coast, thereby taking possession of Dunkirk, Calais, Bologne and Dipe, and cutting off direct connection between Great Britain and the armies of the allies, the war situation would be given a new face. London, Portsmouth and Southampton would be threatened from the air and Paris from the land.

DATE LINE INDICATES THE SOURCE OF THE NEWS

In perusing the war dispatches it is well for the reader, in order to give the different stories their proper weight, to understand that at the present time there are only two direct lines of communication. One of these is the cable which leads from the war office in London and the other the wireless, erected at Saville, L.I., which is in communication with Berlin. Broadly speaking, these two sources represent the stories of the different sides. The war office, we know, is correct in the scanty information it gives, and anything emanating from that source may be accepted as authentic and positively correct. The exasperating feature is that it does not give more news, which might easily be done without any injury to the cause of the allies. The German source, via Saville, we are not so sure of. Certainly, in telling their story to the North American continent, they will put the best interpretation on what they send out. But these are the two stories, and the Capital intends to publish them both in extenso. To curtail any of the dispatches, or to alter them, merely because they come from a hostile source, would not be good journalism, nor would it be fair with the public. But readers at all times should bear in mind that the date line in all cases indicates the original source of the news.

NORTH COUNTRY IS ALREADY OPEN FOR EDMONTON'S TRADE

Alberta and Great Waterways
Steel Will Be at Lac la Biche
This Year.

GRADING IS PAST LAKE; SURVEY 80 MILES BEYOND

H. A. Roth Surprised at Vastness and Richness of
Idle Country.

After making a circle tour of part of central Alberta, H. A. Roth, president of the Edmonton and District Association, is back in the city. Among the places he visited was Lac la Biche, past which the Alberta and Great Waterways railway is now being built. The Waterways is making great headway, according to Mr. Roth, and need not be at the lake by the first of December. Grading is now completed to that point and beyond while survey parties are working 30 miles on the other side, running final surveys. It is expected that not only will Lac la Biche be reached this year but Fort McMurray next.

"What impresses one the most," said Mr. Roth, "is the richness and vastness of the country—doing nothing. I went north via Vermillion, the drive from Vermillion to the lake occupies four days. The country is exceptionally rich, especially in mixed farming possibilities, but there is practically nobody on it, vast quantities of the finest hay I ever saw is going to waste and the country is lying idle. Only seldom does one even see the homesteaders."

"I am sure that the country between here and Lac la Biche, at least, has a magnificent future here. As soon as the Waterways road is finished and the lake is over a great empire of the West will be opened up. All the country needs is settlement, now that the long-talked-of transportation question has been solved."

Speaking about Lac la Biche itself and the immediate country surrounding it, Mr. Roth says it is one of the prettiest lakes and will make one of the finest summer resorts in the world. One can wade out in it for 200 and 300 yards, he states.

Mr. Roth came back via Athabasca and the Canadian Northern. He is indeed enthusiastic about the new country tributary to this city which the Alberta and Great Waterways railway is opening up.

TEA MEN FACE GREAT DIFFICULTIES

"If the embargo is lifted it will certainly have a good effect on the tea trade, for as it is we will have no tea in three weeks or less," said the manager of the "Salem" Tea Co. when told that a cablegram stated that the tea embargo was to be raised, "although we are carrying a stock of tea to the smallest possible dimension. For instance, we had orders from Detroit last week for 40,000 lbs. We cut these down to less than 20,000 lbs. as throughout the U.S. as well as Canada it is a fact that the embargo is being taken off it will still take five weeks to get tea here from London, and it may take very many more weeks because of the difficulties of getting steamers to carry."

"To be sure we have lots of difficulties with which to deal besides the embargo—freights have nearly doubled—war risk insurance—the impossibility of obtaining exchange on London, which none of the banks here have a sell—least they had not two or three days ago when we were trying to buy."

"To add to our troubles, on Friday last we received a telegram stating that the 'Salem' had arrived at Jeddah with a lot of tea for us which we hoped to have rushed here, but the ship was delayed, and we have to run the shipment up here, advise us that the steamship company are holding up the tea. The British Express Co., who have the 'City of Norwich' and the 'City of Durham', both of which are some place in the Mediterranean, but away behind time."

"As to the future of tea—We are just as much in doubt as though we were not in the trade at all. We have never had so much worry and trouble in our forty years' experience. This has been chiefly brought about by abuse from our customers for not delivering their orders in full, when we positively have not the tea to deliver."

"The public can depend on the 'Salem' Tea Co., serving them as it has for twenty-five years back, with the finest quality of tea at the very lowest price at which it can be sold."

Superintendent of Sunday School in Toronto Tells How He Cured Himself of Chronic Rheumatism After Suffering for Years.

55 DOVERCROFT ROAD, OCT., 1st, 1913

"For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your 'Fruit-a-lives' in my case of Chronic Rheumatism, especially in my hands. I have spent a lot of money without any good result. I have taken 'Fruit-a-lives' for 18 months now, and am pleased to tell you that I am cured. I have been able to do my work, and have no more pain. I have not left my hands and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 15 pounds in 18 months."

R. A. WAUGH

Rheumatism is no longer the dreaded disease it once was. Rheumatism is no longer one of the "incurable diseases." "Fruit-a-lives" has proved its marvellous power over Rheumatism, Sciatica, Lumbago—in fact, over all such diseases which arise from the derangement of stomach, bowels, kidneys or skin.

"Fruit-a-lives" is sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

MILITARY OPERATIONS ON TREMENDOUS SCALE SAID TO BE IN PROGRESS

(Capital Leased Wire)
Rotterdam, Aug. 29.—Military operations on a tremendous scale are in progress and it is understood that the Germans are throwing themselves against the entire line of the allies with unprecedented fury.

Reports from the front point to the Rhine say that large numbers of wounded are being brought into that district.

SNEAK THIEVES BUSY AROUND PARTS OF CITY

Complaints have been reaching the city police department within the last week of sneak thieves who are busy in apartment blocks. A particularly heavy case is at the Gibson block, Jasper east, where a man's room was entered and some 1400 worth of valuables stolen. These included china, cut glass, silverware, clothes and a gold watch.

"Detectives Broadbent and Petheram were detailed on this case and were successful in locating most of the stolen goods around the city, some having been sold to second-hand stores and others to parties in the city. In connection with the theft, the detectives arrested Thomas Deskins on a stolen automobile Thursday night. He appeared before the magistrate on a charge of vagrancy and was taken into custody for one week, pending the locating of the balance of the stolen goods from the Gibson block, when the theft charge will be laid against him.

The theft of some jewelry from a room in the Jovial Hotel, 1001 Broadway, first street, is also reported, but as yet no arrests have been made.

BRITISH WARSHIPS ARE SEARCHING FOR LEIPSIG

(Capital Leased Wire)
Seattle, Aug. 29.—The British cruisers Newcastle and Rainbow and the Japanese cruiser Isuzu are reported to be searching along Vancouver Island and the northern British Columbia coast for the German cruiser Leipsig. The belief is growing that the German vessel did not come north. Fishing boats report seeing the cruiser, but they may have sighted one of the other three cruisers.

MORE BRITISH WARSHIPS TO CLEAR NORTH ATLANTIC

(Capital Leased Wire)
New York, Aug. 29.—It was reported in shipping circles here today that six more British cruisers had been ordered to the Atlantic coast to blockade American ports against the escape of German merchant ships and to clear the North Atlantic of the enemy's warships. The British general here would neither confirm nor deny the report, but the news that five more British cruisers had been ordered to the Gulf of Mexico was pointed to as indicating that reinforcements would be needed in northern waters.

GERMANS NOW ATTACKING TOWN IN BELGIAN CONGO

(Capital Leased Wire)
L'Esperance Agency dispatch from Liekeville, in Belgian Congo, has been attacked by German troops. The Belgian administration in Liekeville has been ordered to take defensive measures and has informed Great Britain and the French government of its action. Liekeville has a population of 2,400, of which 120 are white.

MIKE POPOVICH IS ON WAY TO TRIAL

Austrian Arrested Here Being
Taken to Face Murder
Charge in B. C.

Mike Popovich, the husky Austrian standing over six feet in his stockings, and held by the police as a murder suspect in connection with a case at Endako, British Columbia, left Friday night at 9:15 over the Grand Trunk Pacific for Fort Fraser, accompanied by a R. C. Provincial detective from made the trip to Edmonton to get him. He was arrested in Edmonton by Detective Shaw, upon information received from Endako and was heavily handcuffed for the return journey.

Popovich was held here on a vagrancy charge, awaiting the arrival of the coast detective, but will now face a charge of murdering a Greek by the name of Tokoula, in his shack. The latter's body was found last night after he had apparently been dead for almost a month, the body being found in a very bad state of decomposition. The head of the dead man showed signs of having been beaten with a heavy club until death came.

A web of circumstantial evidence is fast weaving itself about Popovich, for not only does he answer the description of a man had seen with the man Tokoula before his death but he has told a most contradictory story to the officers. When questioned, Popovich stated he had just come from British Columbia but when the charge of murder was put up to him, he immediately changed his tune, and stated emphatically that he had never been in that province. Another inmate of the jail stated that the heavy drill pants worn by the accused, are blood stained from the head of the murdered man, the murdered man. The motive for the murder apparently was robbery.

AUSTRIAN TROOPS IN BAD SHAPE; RATIOS HAVE BEEN REDUCED

(Capital Leased Wire)
Rome, Aug. 28, via London, (6:40 a.m.)—The correspondent at Trieste, Austria, of the Messaggero says: "A serious condition prevails at Pola, where the troops have been reduced to half ratios. An entrenched camp is being constructed around Pola. The troops operating in the south have been ordered to remain on the defensive as a large number of troops have been taken from Bosnia and sent to Galicia, to oppose the Russians, who are making alarming progress."

RUSSIAN ADVANCE RAPIDLY OVERCOME AUSTRIAN FORCES

(Capital Landed Wire)
London, Aug. 29.—The Russians are advancing rapidly on Lemberg, Austria, their capture overcoming all Austrian opposition; says a despatch from the St. Petersburg correspondent of the Exchange Telegraph. The message continues:
"The Russian troops are marching on Kolnberg and have already repulsed the advance guard of the Austrians. The Russians now occupy important positions on the river Vistula and Dniester, the Russians are in close touch with the Austrians, who have already defeated decisively at Trenchschoff and Monastyrzka."

WOMEN, CHILDREN AND CLERGYMEN VICTIMS GERMAN ATROCITIES

(Capital Landed Wire)
London, Aug. 29.—A despatch to the Post from Rotterdam, a seaport in the Netherlands describing the sacking of Louvain from what seems to be authoritative source, says many civilians were killed including women, children and the clergy. Their nationalities, it is declared, did not save one English and one American clergyman. All public buildings were destroyed. A despatch adds that there will shortly start for the United States a commission consisting of four members of state, whose mission it will be to make public alleged German atrocities.

RUSSIAN ADVANCE NOW AT KOLJUSCH; STATED HAVE REOCCUPIED LODZ

(Capital Landed Wire)
London, Aug. 29.—A despatch from St. Petersburg to the Daily Mail says the western districts of Poland as far east as Lodz were for sometime held by smaller German detachments. These are now falling back and Lodz has been reoccupied by the Russians. The advance Russian cavalry has reached Koljusch, near Lodz.

SUPERIORITY IN LONG RANGE OF GERMAN GUNS CAUSE OF NAMUR DEFEAT

Falkenstein (via London), Aug. 29. (4.05 a.m.)—A number of Belgian wounded men have arrived here but it is difficult to get any connected account of the fight there. They state the Germans bombarded continually from Friday till Sunday, and they believe it was the superiority in long range of the German guns, which gave them the victory. On Saturday a German shell exploded in Marcheville fort, and put the largest gun and one six inch gun out of action. Two hundred Belgian soldiers while trying to escape were practically annihilated by German shrapnel and machine guns.

STATED WILLIAM OF WIED TO VACATE HIS THRONE NEAR FUTURE

(Capital Landed Wire)
London, Aug. 29.—A despatch to the Exchange Telegraph company from Rome says:
"An authentic message received here from Durazzo, Albania, states that as both Italy and Austria have withdrawn support from Albania, the intention of the Albanian ruler, Prince William of Wied, to vacate the throne in the near future, is officially confirmed."

It's Easy to Peel Off Your Tan or Freckles

This is what you should do to shed a spotted complexion: Spread evenly over the face, covering every inch of skin, a thin layer of ordinary neutralized vas. Let this stay on over night; wash it off next morning. Repeat daily until your complexion is as clear, soft and beautiful as a young girl's. This result is inevitable, no matter how solid or discolored the complexion. The wax is entirely peeled off the flimsy surface skin, exposing the lovely young skin beneath: the process is entirely harmless, so little of the old skin coming off at a time. Mercolized vas is obtainable at any drug store; one ounce usually suffices. It is a veritable wonder-worker for rough, tanned, reddened, blotchy, pimply or freckled skin.

Pure powdered exfolite is excellent for a wrinkled skin. An ounce of it dissolved in a half pint of witch hazel makes a refreshing wash-lotion. This renders the skin quite firm and smooth; indeed, the very first application erases the finer lines; the deeper ones soon follow.

RUSE BY GERMAN INFLECTS HEAVY LOSS ON BRITISH

(Capital Landed Wire)
London, Aug. 29.—A private letter received here from a British officer at the front tells how a British cavalry regiment suffered severe loss through a ruse of the enemy.
The regiment, it seems, sighted a German battery not far off firing in a reverse direction and the British officer decided that the battery was unaware of their presence, whereupon he ordered a cavalry charge down into the valley which lay between them and the battery. Unfortunately the bottom of the valley had been very cleverly studded with concealed barbed wire into which a great portion of the regiment rushed before the front rank could give warning. Immediately the German battery turned its guns around, inflicting heavy loss.

Singing Songs That Fit

Men and women of vaudeville are conspicuously inconsistent sometimes in their selection of songs. They will use great care in choosing their act effectively and appropriately, but when it comes to the selection of songs their taste seems to waver. Men sing the lyrics of songs which should properly be used only by a woman, and women sing songs that are written particularly to be used only by men. Songs that express love sentiments in masculine gender make a woman appear ridiculous when singing them. Men who sing songs that tell of feminine emotions are equally ridiculous. But it is nevertheless a fact that these things happen two or three times a day in almost every vaudeville bill in the country. Previously the incentive to sing ill-suited songs has probably been for the money the publishers paid for the service. But now with only two New York publishers paying singers there is a possibility that the foolish custom will have an end.

Patriotic Fund Growing

Halifax, Aug. 29.—A meeting of the directors of the Bank of Nova Scotia, it was decided to contribute \$25,000 to the Canadian National patriotic fund. Toronto, Aug. 29.—The Dominion Bank has donated \$25,000 to the Canadian national patriotic fund. Montreal, Aug. 29.—Merchants Bank today voted \$25,000 for red cross society. Directors of Provincial Bank of Canada voted \$5,000 to National patriotic fund.

BRITISH CASUALTIES HEAVY, SAYS ASQUITH

London, Aug. 29.—Premier Asquith in the house of commons today said: "We have heard from Field Marshall Sir John French, commander in chief of the British expeditionary force, that in the fighting which took place between his army and the enemy on Wednesday, August 26, which appears from French official reports to have been in the neighborhood of Cambrai and Locatout, our troops were exposed to the attack of five German army corps; two divisions of cavalry, and a reserve corps of cavalry, and a second cavalry division."

"Our second corps in the fourth division bore the brunt of the cavalry attack while our first army corps was attacked on the right and inflicted a very heavy loss on the enemy."

"I regret to say that our casualties were heavy, but the exact number are not yet known. General Joffre, the French commander in chief, in a message published this morning, conveys his congratulations and sincere thanks for the protection so effectively given by our army to the French flank."

ESKIMOS HAVE TROUBLE GALORE WITH LUMPS WHEELER AT MOOSE JAW

Players Are Fined \$60 But Wheeler Refuses to Accept Players Notes For Same, as They Did Not Have That Much Cash—Game Forfeited to Moose Jaw—Exhibition Game Played and Eskimos Win 6 to 2.

(By Deacon White)

We won tonight's game and the reason is Wheeler wasn't unringing. He has been getting even with us on this trip. He robbed us of first and third games at Regina, and took our heart out in the fourth game by rotten decisions, which gave Regina their first two runs. We came to Moose Jaw and he stole a run from us on decision at the plate which enabled the Jaw to get a tie, and last night he broke the camel's back with a decision that gave Moose Jaw the first run of a pitchers' battle. He called Kurfess safe at home plate on an infield hit that wasn't even close. This was more than flesh and blood could stand, coming on top of his work in all previous games. The entire team protested including myself. We couldn't help it, because we have been trying our hardest to win and knew we can beat these teams.

Wheeler fined nearly all of us, most teams would have made a farce out of the remainder of the game. We were upset for that lining, and they scored four runs, but we batted them to the finish, giving the spectators a game.

Tonight being short of cash owing to the fact that Regina would only pay us for four games when we were

scheduled for six, and having paid our hotel bills in advance, we tendered Empire Wheeler, as payment for, fines promissory notes, made payable to Western Canada league, on players' paydays. He refused to take them and forfeited game to Moose Jaw. I protested the forfeit and game was played with players unringing. We won easily proving to some extent our contention that we cannot win with Wheeler. Our notes were tendered in good faith.

Fined Eskimos \$60

Moose Jaw, Aug. 29.—The Eskimos were in trouble when they met fate to face the Millers yesterday. Porter went out to bat when he was asked by Empire Wheeler for the amount of his fine over yesterday's trouble. The team had been mulcted as follows: White \$100, Lemieux \$20, Tovey \$5, Fortier \$5, Williams \$5, Chick \$5, and Frink \$10, amounting to \$160. Deacon White immediately protested the game, giving as reason of non-payment of fines that Edmonton team were short of cash. An exhibition game was then played which was featureless, Edmonton winning 6 to 2.

WHOLESALE AND CITY DAIRY PLAY FINAL GAME TODAY

After winning one game each, the Wholesalers and City Dairy will meet in the final game for the amateur championship of the city, this afternoon at 6:30 on Diamond Park. The game should be a dandy. The Wholesalers won the first game by 1 to 0 in ten innings, and the Dairy took the next by 4 to 2. Today's game is final and a large crowd will likely be present. Irwin and Stenue will likely be the E. C. D. battery, while the Wholesalers can choose from Anderson, Murphy and Gribben for pitcher, and Shesley to catch.

The Civics will play their last league match against North Edmonton at the east end park this afternoon. The following players are requested to represent the Civics and be on hand at 2:30 sharp: Hirst (captain), Poole, Solferet, Street, Collier, Gibbs, Worsatt, Hodson, Chambers, Bush, Ward.

QUAKERS HIT IN PINCHES AND WIN

Defeat Calgary Bronks 3 to 2. Battiste Allows Only Six Hits

Saskatoon, Aug. 28.—Hitting in the pinches gave the Quakers a 3 to 2 victory in yesterday's game with the Calgary Bronks. Only six hits were made off Battiste, but they came with men on.

Score—

Calgary, 000 000 110-2 10 1
Saskatoon, 000 011 103-3 6 1
Battiste; Battiste and Becker; Norstrup and Walters.

EDMONTON PACER DROPS DEAD AT ATHABASCA IN MATCHED HORSE RACE

Athabasca, Aug. 28.—Dot McLeod, a racing stallion owned by Joe Violette, Edmonton, dropped dead here today, in the second heat of a matched race with Nelly K., owned by Russell Prox, Athabasca. Dot McLeod won the first heat of the race, which was for a \$500 side bet and was being in the second heat when he keeled over just 100 yards from the wire. All bets were declared off.

C. P. R. Cutting Trains.

Moose Jaw, Aug. 28.—It is rumored among railway men in this city that the C.P.R. is considering cutting off four of the daily passenger trains running east and west from this city. The rumor was neither denied or confirmed at the general offices yesterday.

Regularity

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. AUTOMOBILE NEWS

An ordinary dent in a fender may be rendered almost unnoticeable by the following method:

Make up two wooden blocks, one to conform to the outside and the other to the contour of the inner surface.

Place paper or cloth between the outside block and the fender to prevent injuring the enamel; then after placing the other block in position, strike them with a hammer or mallet until the dents have been removed.

In the case of a very bad dent it is well to heat the inner surface slightly with a blow torch as this will soften the enamel and prevent it from cracking. Care should be taken not to heat this surface hot enough to burn the enamel.

Faulty ventilation, low gear running and excessive speed also increase the gasoline consumption.

Have you seen him on the box?

Have you remembered to say "Ben Bey" to the man behind the counter?

Forgot? Listen—you'll forget Ben Bey just until you've smoked one—not afterward.

There are several reasons—plantation-cured, expertly-blended, long filler; fine, air-tight Sumatra wrapper; skilful making in clean, tight workrooms. Blend and making both tell in the steady-flavoured smoke, the even burning and the "more-ish" finish. And Ben Bey's cigar your doctor will approve of, because it won't give you "nerves."

Proof? Simplest thing on earth—just get smoke-hungry, stick one Ben Bey between your teeth and puff!
